

WILDLIFE MANAGEMENT AND CLIMATE ADAPTATION WORKSHOP

PURPOSE:

Wildlife managers face the growing challenge of helping wildlife populations and ecosystems respond to climate change. This active, hands-on workshop will help participants consider climate change and develop custom-built adaptation actions into their own real-world projects.

OUTCOMES:

Through this workshop, participants will be able to:

- **Describe regional and local effects** of climate change on wildlife in the Midwest.
- **Understand climate adaptation concepts** in the context of terrestrial wildlife management.
- **Develop custom-built actions** to enhance the ability of wildlife species to adapt to changing conditions.

WHO SHOULD PARTICIPATE:

This workshop is for professional wildlife managers, including staff members from consulting firms; NGO conservation organizations; and employees of federal, state, tribal, and county agencies.

We ask participants to bring their own real-world projects to consider at this workshop. Example projects include:

- A habitat management plan for a state Wildlife Management Area
- A population plan for a sensitive or harvested species
- A landscape-scale wildlife management plan among several agencies

We encourage small teams of 2-5 people to work together at the workshop, but individuals working on their own are also welcome.

WHEN AND WHERE?

September 27-28, 2018

**Glassen Shooting Education Center,
Rose Lake State Wildlife Area
Bath, MI**

QUESTIONS?

Questions about this workshop can be directed to Stephen Handler (sdhandler@fs.fed.us) and Chris Hoving (hovingc@michigan.gov)

REGISTRATION

Workshop cost: Free! (includes lunch and refreshments, not lodging)

Please register by August 27:

<https://goo.gl/forms/Fu6EZcHTRFN1GSOz1>

Registration will be capped at 35 participants.

Organized by NIACS, USDA Northern Forests Climate Hub, USGS Northeast Climate Adaptation Science Center, Michigan Dept. of Natural Resources, University of Wisconsin-Madison, and the Wisconsin Initiative on Climate Change Impacts. Workshop costs provided by Michigan Dept. of Natural Resources.

WILDLIFE MANAGEMENT AND CLIMATE ADAPTATION WORKSHOP

DRAFT AGENDA:

THURSDAY, SEPTEMBER 27

- 9:30 *Registration & Coffee*
- 10:00 *Welcome & Introduction to the Workbook*
- 10:30 *Workbook Step 1 – Introduce people and projects*
- 11:00 *Workbook Step 2 – Assess climate change impacts*
- 12:15 *LUNCH (provided)*
- 1:00 *Workbook Step 2 – continued*
- 1:45 *Workbook Step 3 – Feasibility of mgmt. objectives*
- 3:30 *Workbook Step 4 – Identify adaptation actions*
- 5:00 *Adjourn for the day*

FRIDAY, SEPTEMBER 28

- 8:30 *Day 1 Recap*
- 9:00 *Workbook Step 4 – continued*
- 10:00 *Workbook Step 5 – Monitoring effectiveness*
- 11:00 *Wildlife Adaptation Menu feedback and discussion*
- 12:30 *Adjourn and travel home!*

BRING YOUR OWN PROJECT

Want get the most out of this workshop? We're looking for 5-10 participants to bring real-world projects of your very own to use as examples during this workshop. You'll lead a small group, and when the dust settles you'll have a custom-built adaptation plan that's ready to implement! Contact Stephen Handler for more information (sdhandler@fs.fed.us).

BACKGROUND INFORMATION

The Northern Institute of Applied Climate Science (NIACS) is expanding on the published adaptation toolkit for forest managers - *Forest Adaptation Resources and the Adaptation Workbook*, to develop a new resource focused on terrestrial wildlife management.

This new effort will produce a “menu” of climate adaptation strategies and approaches for use in a structured decision-making framework. Managers will be able to use the new wildlife adaptation menu to develop customized actions for implementation, to communicate the rationale for their actions, and to define their view of success in the context of climate change adaptation.

Throughout this workshop, participants will actively use the new menu of strategies and approaches. Your feedback will shape the continued development and improvement of the tool. We need your help!

MORE INFORMATION
