Forest Adaptation Planning and Practices

Contact Information (Primary Contact – Only one application needed per team)

Name _____

Organization _____

Location (city, state) _____

Email _____

Phone _____

Are you signing up as part of a team?

We've designed the training to be effective for small groups, which allows for greater discussion and idea generation, as well as individuals. There will be a \$42 per person registration cost, which will be due in advance of the training.

Small group (2-4 people recommended)

Names and email addresses of other members:

Just me

Description of Forest Management Project

During this training, you'll be working on an actual forest management project that is pertinent to your job and your interest in learning more about climate change and forest adaptation. Examples are online at <http://forestadaptation.org/framework-components/demonstration-projects>. Please provide a few sentences that describe the location, forest type, resource issue, and/or climate change challenge that you'd like to evaluate during this training. Don't worry about getting it perfect—we'll work with you to further develop your idea as part of the training.

Location

Forest Ecosystem or Community Type

Management Goals/Objectives or Resource Emphasis

When will this project take place?

How do you think this project would benefit from the training?

Have questions or want to discuss your idea for a project?
